

## Deidre Ohlson

I started studying the Paralegal Course at the South African Law School in 2006 fulltime. The various subjects gave me a deeper insight into the legal field.

The course has been very informative, and has also equipped me with the knowledge to be an Entrepreneur.

I am currently employed at a leading law firm in Cape Town. With the knowledge I have gained, I can now help my community.

The Law School also has practical courses which I enjoyed the most because I could assist in teaching them the knowledge I have gained, the Advice Office where people in need seek assistance. Visits to the High Court and CCMA were an added extra.

The Paralegal Course was an excellent start to my career.

Thank you, South African Law School.
